Copyright, Canada, 1952, by Henderson Directories Ltd., 279 Garry St. Winnipeg

Introductory

The present volume for 1952 is the 47th edition of Henderson's Directory of Edmonton. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION starting at page 11 contains information about Civic History and Industry, as well as a complete list of Apartment and Business Blocks.

THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting on page 25 features the names of all streets and avenues arranged alphabetically and numerically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

△ Denotes that there is a Telephone in the house.

◆ Denotes that someone living in the house is the owner.

THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations starts on page 361.

THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY at the back of the book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

EDMONTON POPULATION, in excess of 185,000

The Directory estimate of population is based on the actual number of individual names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Edmonton Directory covers considerable territory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Edmonton may be obtained.

ADVERTISING EDMONTON

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully

The Publishers

EDMONTON

CAPITAL OF THE PROVINCE OF ALBERTA

Statistical Information

POPULATION—

Edmonton estimated population including West Jasper and other suburbs—185,000

AIRPORT—

The Airport comprises 750 acres, with 3 one mile long concrete run ways, 16 hangars, 200 small buildings, and employing over 1,000 people

ALTITUDE—

2 182 feet.

APARTMENTS AND BLOCKS—

Over 1,000.

AREA

42 6 square miles.

BANK CLEARINGS—

1949 — \$1 020,493,676

1950 — \$1,295,326,649.

1951 — \$1 332 219 273

CHURCHES—

134 representing all denominations

CITY STATISTICS—

40 miles of streets, 991 miles of sidewalks, 406 miles of water-mains, 404 miles of sewers

COMMERCIAL BUILDINGS—

Over 5,000

EDUCATIONAL—

42 Elementary Schools, 18 Junior High Schools, 5 Senior High Schools, 4 Colleges and University of Alberta.

Separate Schools, 2 Senior, 14 Junior High and 9 Elementary.

FINANCIAL INSTITUTIONS—

7 Chartered Banks, 23 Branches, 9 Trust Companies and 3 Alberta Treasury Branches.

FIRE DEPARTMENT—

29 pieces of equipment, 7 Stations staffed by 263 officers and men operating on the 3 platoon system.

FORM OF GOVERNMENT—

The City of Edmonton is governed by a Mayor and ten Aldermen and by two City Commissioners.

GOLF COURSES—

5

HOSPITALS—

8 hospitals with 4,553 beds

HOTELS—

26 of all classes.

LIBRARIES—

One Public Library and 1 branch and 2 Bookmobiles.

NEWSPAPERS—

1 daily and 7 others

NATURAL GAS—

Proven natural gas reserves rose from two and one-half trillion cubic feet in 1947 to seven trillion, while potential reserves "in a few years" might stand at 28 trillion cubic feet.

OIL CENTRE—

A year ago known reserves were estimated at about 350 million barrels. 1950 is expected to prove a reserve of 2 billion barrels — with only a small portion of the province's possible oil bearing areas investigated.

PARKS AND PLAYGROUNDS—

Consists of 2,500 acres.

POLICE DEPARTMENT—

4 Stations staffed by 186 officers and men, with 10 radio equipped cars and 14 motorcycles.

POPULATION—(Greater Edmonton)

1900	4,000
1906	14,000
1921	58,827
1925	65,385
1930	77,577
1935	81,261
1940	91,723
1945	111,745
1949	150,000
1950	160,000
1951	170,000
1952	185,000

POSTAL RECEIPTS—

\$2,192 977

PROPERTY ASSESSMENT—

1952 — \$176 445 730.

TAX RATE—

1952 — 56 Mills.

TOWN PLANNING DEPARTMENT—

Created in 1949 for the City of Edmonton and has a staff of sixteen members. This is the central Civic Department around which resolves all problems of overall Town Planning approach, procedure, method, initiation, plans and general administration of Town Planning functions. Phone 26181 Local 24 or 34.

TRANSPORTATION—

Street car and bus. 87 Trolley Buses and 100 Gasoline Buses.

THEATRES—

17

UTILITY CONNECTIONS—

Electric Meters	46,965
Gas Meters	33,053
Telephones	46,476
Water Meters	33,669

Miscellaneous Information

(Corrected and brought up to date as of June, 1954, by Town Planning Department City of Edmonton).

Modern Edmonton began in 1871 when the Rev. George McDougall, a Methodist Missionary, built his mission outside the palisades of old Fort Edmonton, on the present site of what is now McDougall United Church. The history of the capital city of the Province of Alberta began in 1784, when the Hudson's Bay Company and the North West Fur Company built rival trading posts on the Saskatchewan River, about twenty five miles below the present site of the City. These forts were destroyed by the Blood Indians in 1807, and rebuilt in 1808, but very little is known of the history of Fort Edmonton between that time and when Fort Edmonton was established on its present site, in 1813. Some years later Chief Factor John Rowand was placed in charge and built the largest establishment west of York Factory with stockades twenty feet high, complete with bastions and cannon, which became known as 'Rowanda Folly,' but which nevertheless, was the trading centre for the vast Saskatchewan and Athabasca valleys.

In the years which followed Fort Edmonton was visited by Sir George Simpson, Governor of the Company of Gentleman Adventurers Trading into Hudsons Bay who was implored by the Blackfeet Chiefs to "grant that their horses might always be swift, that the buffalo might abundantly abound and that their women might live long and always look young." Other visitors included Paul Kane, famous Canadian artist, Captain John Palliser and James Hector, of the Palliser Expedition looking for a railway pass through the Rocky Mountains, Lord Milton and Dr. Cheade on behalf of the Royal Geographical Society and in 1872 Sanford Fleming C.E. with his party reached Edmonton on the first trans-continental railway survey via the Yellow Head Pass.

Edmonton is beautifully situated on the banks of the North Saskatchewan River in the midst of rich, rolling evergreen country and is surrounded by a populous community carrying on mixed farming on small acreages. To the northwest is the Peace River Country, the last great hinterland of agricultural and mineral resources well-known for its prize-winning crops and its success in world grain competitions. But Edmonton's trading territory extends beyond the Peace River Country, into the Yukon Territory and right into Alaska. To serve the community of Yellowknife and the Northwest Territories, the Mackenzie Highway has been jointly constructed by the Government of the Province of Alberta and the Dominion of Canada, to haul supplies for this vast area to Hay River to be taken across Great Slave Lake by boat and barge, or hauled, in winter, by tractor train across the ice.

LOCATION AND ADVANTAGES

Edmonton (Latitude 53-35, longitude 113-30) is located 318 miles north of the boundary between Montana and Alberta;

200 miles east of the Rocky Mountains; 770 miles from Vancouver, via the Canadian National Railways and Jasper, 840 miles on the Canadian Pacific Railway via Banff and Calgary and about 800 miles west of Winnipeg.

It is the commercial and financial centre of 75,000 square miles of territory, rapidly increasing in population and wealth, and containing at the present time some 500,000 people, distributed on the farms and in the towns and villages of Central and Northern Alberta, with the centre of population for the province about forty miles to the south.

The City is also an important highway centre. A good highway, some of which is black-topped, exists from Edmonton to Jasper Park, 248 miles to the west thence via the famous Sunwapta Highway, or the Banff Jasper Highway as it is more commonly known, to Lake Louise and Banff. The widely-publicized Alaska Highway, over 1,600 miles in length from Dawson Creek British Columbia, to Whitehorse and Fairbanks, has highway connection with the City. Since the Alaska Highway was taken over by the Canadian Army it has been kept open the year-round and the bands of tourists, not to mention freight trucks and busses, are continuously plying its entire length.

MOTELS AND ACCOMMODATION

The City has numerous hotels, auto courts, apartment houses and private boarding houses catering to every class of tourist and traveller. But with Edmonton's growing pains, this accommodation is not nearly sufficient to meet requirements, and the Edmonton Chamber of Commerce, in conjunction with the City of Edmonton, has set up a Tourist Information and Accommodation Bureau to provide lodging in the private homes of the City. The Emergency Accommodation Bureau too, operated by the City, is geared to cope with the housing situation.

PARKS AND RECREATION

Edmonton has plenty of places of interest, both within and without its borders. The social side of life—sports and recreation—is fostered by many organizations and clubs, and the Recreation Commission, a civic body is charged with handling sports within the City parks and playgrounds, where trained instructors are on duty night and day during the summertime. Clarke Stadium, with a seating capacity of eleven thousand, provides for rugby, soccer, lacrosse and track events, while contiguous to the Stadium grounds are hard and softball grounds. Amateur ball is played on the diamonds at Kingsway with semi-professional ball devotees patronizing Rinfrew Park.

The principal parks are, Victoria, 300 acres, lying on the river flats; Riverside, 100 acres, beautifully situated in Queen Elizabeth Park; Borden, 50 acres, containing the City Zoo and Exhibition Grounds, 50 acres. The new Zoo on Walterdale Flats is 40 acres, South Side Athletic Park of 20 acres and White Mud Park of over 200 acres.

The moving picture houses give the public the best and latest shows, while those interested in amateur theatricals find full scope for their talents.

The Annual Summer Fair draws thousands of visitors. Breeders of livestock from all over Canada, and many States are regular exhibitors. A new innovation during the last few years has been two weeks of racing, which is proving most popular.

GOLF COURSES

Devotees of the royal and ancient game of golf find in Edmonton a perfect setting for their favorite outdoor sport. The bright, pleasant days of spring and summer with their long twilight evenings, provide ideal golfing even after the business of the day is over.

The privately-owned Edmonton Golf and Country Club course occupies a commanding situation on the banks of the Saskatchewan River, some eight miles south-west of the City, in close proximity to the Woodbend oil field.

Mayfair Golf Club too is privately owned and is situated in the valley of the Saskatchewan River just below and beyond the University of Alberta.

The Highlands Course, also privately owned, is situated in the eastern section of the City, along the winding banks of the Saskatchewan.

The Municipal Golf Course, in Victoria Park, is one of the beauty spots of Edmonton. On the one hand rises the green slopes of the valley, and on the other, the Saskatchewan River winds through tree-clad banks. It now possesses twenty-seven holes covering 11 acres. The valley curves with the bends of the river, the whole forming a natural amphitheatre—fit spot for a city's playground.

The City has opened Riverside Golf Course acclaimed as one of the finest in the country. 18 holes and one of the finest log Club Houses seen in Western Canada, occupies 160 acres in the most beautiful scenery in the Saskatchewan River Valley within one mile of the MacDonald Hotel.

MUNICIPAL SWIMMING POOLS

Edmonton is well-equipped for safe out-door bathing. Three modern swimming pools, together with a wading pool for small fry, are in operation during the spring, summer and autumn months, each in charge of a qualified instructor. The water is filtered, heated and sterilized and bacterial tests are regularly made by the City Bacteriologist. Two indoor pools open to the public, including the Victoria Composite. This pool and the other facilities of the School was awarded a Gold Medal in 1951 by American Association of Architects as one of the eight best Schools erected in the United States and Canada in 1951.

NATURAL GAS

Edmonton has an abundant supply of natural gas, supplied to householders at the lowest rate on the North American continent, sufficient for at least fifty years, according to present estimates for both householder and industry. The present sources of supply are piped to the City from the Viking and Kinsella fields, about eighty miles east. Edmonton consumers — domestic commercial and industrial, number over thirty-eight thousand — paying about three-and-one-half million dollars annually for the service.

CENTRE OF TRANSPORTATION

Edmonton is the centre of transportation for Alberta, from which radiates a net-work of railway lines extending

northwesterly into the Peace River area, and northeasterly to Waterways, the commencement of river travel to the Arctic, as well as eastward and westward to the borders of the province, and southward through a rich agricultural farming area. Transcontinental lines of the Canadian National Railway pass through the City, and the Canadian Pacific Railway makes contact with many points through which the trans-continental lines of that company pass.

The Airways development of the continent has brought into prominence as one of the strategic centres of air transportation, and only recently Trans-Canada Air Lines established Edmonton as a main-line point on its east-west service. The great north country is provided with regular freight and passenger schedules by Canadian Pacific Air Lines, which company also operates to the Pacific Coast and will soon commence an Oriental service. A number of charter aircraft companies also are based in the City. North West Air Lines planes also make Edmonton a port-of-call on their way to Alaska, and Western Airways of California now make Edmonton their northern terminal. Average monthly volume of air traffic exceeds 91,527 take-offs and landings.

Edmonton has a Class "A" airport, equipped with modern concrete runways and capable of handling the largest aircraft, located within five minutes' drive from the heart of down-town Edmonton. At Nampa, seven miles north, is one of the largest military airports on the continent.

A seaplane base is located at Cooking Lake, twenty miles east of the City, and there is supplementary landing provided on the Saskatchewan River, on the City's eastern boundary.

EDMONTON CHAMBER OF COMMERCE

The Chamber in this year celebrating its sixty-third year of community service and its membership of nearly twelve hundred, is comprised of professional, industrial, commercial and agricultural interests. Information on all matters relating to the resources of the district, business opportunities and general information of all kinds, is freely given by a competent staff, located in the McLeod Building, opposite the Edmonton Post Office.

EDMONTON INDUSTRIAL DEVELOPMENT BOARD

With representatives from the City Council, the Edmonton Chamber of Commerce and the Trades and Labour Council, and spear-headed by the City's Industrial Commissioner the Board has been set up for the purpose of assisting and attracting new industries. Complete information is available to all enquirers regarding markets, costs of operation, taxes, and kindred material.

WHOLESALE AND JOBBING CENTRE

The key position of Edmonton on the map of the northwest makes it an important distributing point for a large territory. From the earliest times, it was a natural trading centre. In the days of the fur trade, it was the principal point west of Winnipeg on the navigation on the North Saskatchewan River. From Old Fort Edmonton via Fort Assiniboine, the goods for the Hudson's Bay posts west of the Rocky Mountains were regularly despatched.

RETAIL SHOPS

As befits a City serving so large a community Edmonton's retail stores are large, numerous and well-stocked. They vie with thousands of larger and older cities in the display of things new and beautiful. They range from big departmental stores to the small specialty shops. In keeping with the City's growth, local shopping centres are developing designed as a grouped unit in various new residential neighbourhoods. Units together with large planned district shopping centres midway in function between the local centres and the general large central downtown shopping area. Off-street parking facilities are a prime requisite in the design of such centres and these are being achieved as integral parts of all new shopping centres both local and district in this City.

Today Edmonton holds an analogous position in the trade of Western Canada. Besides many independent local firms, the number of wholesale houses includes branches of the most important firms of Eastern Canada and the United States, representing every branch of mercantile trading.

INDUSTRIES

The vast supplies of raw materials available in the area adjacent to Edmonton and its central location for distribution, makes Edmonton a key city for industrial expansion. Dairy and meat packing industries are firmly established and rank amongst the top in the Dominion. Garment factories, iron foundries, flour and cereal mills, candy and biscuit plants, beverage and soft drinks are but a few of the industrial lines represented here. The availability of coal and natural gas, as economical fuel make Edmonton a favorite location for those contemplating establishing industries in Western Canada.

Because of this Edmonton faces a prosperous future for industries of the Petro-Chemical Classification. The Celanese Corporation, known locally as Canadian Chemicals Ltd., is far advanced in its construction of a fifty million dollar plant. The Canadian Industries Ltd., are about to commence a thirty million dollar plant and there are many industrial concerns awaiting the completion of the two plants in order to process the waste products of these plants in commercial products.

The second oil refinery was opened in 1951, namely British American, and the McColl-Frontenac new oil refinery will be producing this year as the third refinery in the Edmonton area.

A GRAIN CENTRE

Edmonton is the centre of the grain trade for Central and Northern Alberta. A Government Terminal Elevator has storage capacity for 2,500,000 bushels, and most of the important grain companies of Western Canada are represented on the Edmonton grain market.

EDMONTON LIVE STOCK YARDS

One of the public terminal livestock markets of Canada is located in Edmonton, and operated under government supervision. Livestock to the value of \$80,703,893 passed through the stock yards and the various Edmonton packing plants during 1951. A horse-meat pickling factory, one of the newer industries is exporting its product to European markets.

AGRICULTURE

Edmonton is the centre of the largest area of agricultural land of any city in Canada. In the outlying districts much of the land is still in the raw state, but is gradually being brought under cultivation. The finest quality of wheat, oats, barley and peas are grown, with Edmonton District farmers making a name for themselves and the area by their winnings at the Chicago International Grain and Hay Show in fact in 1941, the Grand Championship for wheat was awarded to a farmer, part of whose acreage was within the City limits.

DAIRYING

Agriculture in the Edmonton District is developing rapidly along mixed farming lines, and a wealth of farms in the area supply butterfat to the four large, modern dairies which export butter, cheese and other dairy products. The City is also the export centre for dehydrated eggs and poultry.

COAL

Coal mining operations are actually carried on under certain sections of the city, and a substantial part of Alberta's tremendous coal reserves of 46½ billion tons by far the largest part of Canada's undeveloped coal resources, is contained in the Edmonton area.

OIL AND ASPHALT

The discovery of oil west of Leduc, in February, 1947 and about twenty miles south-west of the City, and the vast developments which are taking place, day by day, with many allied companies to the industry already having established in Edmonton, is changing Edmonton's economic outlook. In addition to Leduc and Woodbend across the Saskatchewan River from the Leduc productive field, oil was discovered in the fall of 1948, at Redwater, thirty-five miles north-east of the City, and present indications are that oil underlies the whole of the area. Over two thousand wells have been brought into production in slightly over a five year period. A refinery has been constructed on the outskirts of the City, and additional facilities are in the course of construction at Devon, the townsite located in the centre of the Edmonton-Leduc area. Exploratory and development work is being carried out by major Canadian oil companies with ever-increasing interest by American concerns. A number of pipe-line companies have recently been incorporated, by act of the Dominion Parliament, for the purpose of exporting gas and oil.

Two hundred and fifty miles north of Edmonton in the vicinity of McMurray, there is a vast area of bituminous sands, largely undeveloped, and whose economic value is as yet unproven.

The Inter Provincial Pipe Line Co. was opened in 1951 when oil was pumped through from Edmonton oil fields to Lake Superior.

The Government has given the O.K. to a new westerly pipe line to the West Coast by way of Yellowhead route.

SALT

Tributary to Edmonton are vast salt deposits, with beds 100 to 200 feet thick, one plant being in operation at McMurray and another, recently opened, at Elk Point, about a hundred miles north-east of the City.

FISHERIES

The fresh water lakes of the Edmonton District and the North abound in whitefish, trout and other commercial fish and in 1951, over \$400,000 pounds were taken from these lakes, with an estimated value of over \$860,000. A large quantity of fish is being shipped to American cities finding a ready market there.

LUMBERING

Lumbering is carried on in the outlying areas, and in 1951 over 283,270,932 ft.m. was marketed at a net value exceeding \$12,730,256. The industry provides seasonal employment for large numbers of Alberta citizens.

EDUCATION

Edmonton, the capital city of the Province of Alberta, is not only the seat of the provincial government, but is also the home of the University of Alberta, which in 1951-1952 had an enrollment of 3,400, and this year is graduating the largest class in its history. The medical, engineering, and agricultural faculties of the University have received country-wide recognition and the medical school has been the recipient of endowments from the Rockefeller and Carnegie Foundations. The City is well-supplied with elementary, intermediate and high schools, both for Protestants and Roman Catholics. A number of commercial high schools come under the jurisdiction of the School Boards, and several privately-owned and operated business colleges are engaged in turning out commercial students.

LIBRARIES

The City has two excellent libraries, containing 175,000 volumes. Two Bus Bookmobiles have been equipped as travelling libraries to serve outlying districts, which have over 23,000 volumes on their shelves, making twenty-three book stops through the City.

The Provincial Library, situated in the Parliament Buildings, is rich in works and documents relating to the early history of Western Canada.

Libraries are also maintained in the School of Education and the University of Alberta, namely the Rutherford Library, which contains 120,000 volumes for the use and reference of students at these institutions.

HOSPITALS

Edmonton's position as a medical centre is one of no mean proportions. It has eight hospitals with a total of 4,553 beds (and is even now short of hospitalization facilities), attracting specialists in every branch of medicine and surgery, who, in turn attract thousands of patients to the City from the surrounding areas. Among the hospitals are the Royal Alexandra and Isolation (municipally owned), the General, operated by the Grey Nuns of the Misericordia, by the Sisters of the Misericordia, St. Joseph's by the Sisters of Providence, and the University Hospital under the direction of the Provincial Government. In addition, there is a branch of the Provincial Mental Institute and a special hospital, operated by the Provincial Health Department, for victims of infantile paralysis, not to mention special treatment for tuberculosis and cancer patients. Newly-erected is the Colonel Mewburn Pavilion

of the University Hospital which has accommodation for members of the Armed Forces.

The new T. B. Hospital has recently been opened, containing 200 beds, and last year a large new extension was made to University Hospital. The City is currently erecting a new maternity hospital of 112 beds, and the Oliver Mental Institute is in process of adding a further 100 beds.

CITY GOVERNMENT

Edmonton is governed by a Council of ten aldermen, elected for two years, one half retiring each year, presided over by a Mayor, also elected for a two-year term, and a Board of Three Commissioners, one of whom is the Mayor.

MUNICIPAL OWNERSHIP

Edmonton owns and operates all the public utilities of the City—light, power, telephone, waterworks, transit system, and airport, with the exception of Natural Gas. The principle of public ownership has been firmly adhered to by the people of the City since the purchase of the electric light system in 1902, when the then town of Edmonton made its first venture upon this policy, which has proven quite successful.

ELECTRIC POWER PLANT

Electricity is generated by steam produced in a boiler plant, fired by Edmonton district coal, although present plans are for the conversion of some of the boilers to gas, there being three gas boilers and two coal burners, and one new gas boiler is under construction at the moment. The total capacity now is 80,000 k.w., being increased to 90,000 when the new gas boiler is completed in 1952.

The power plant supplies electrical energy to all the City's other utilities, such as waterworks, sewage disposal plant, Edmonton Transit and Telephone systems, as well as to the electric light and power department for domestic and commercial distribution.

WATERWORKS

Due to turbidity at high water periods, all water, pumped from the Saskatchewan River, for domestic and industrial purposes is filtered and sterilized before being forced into the city mains. Low lift pumps, with a capacity of 54,000,000 gallons per day, raise the water from the river to a mechanical clarifier basin, where sediment is removed. Thence the water flows into agitator tanks, to which the proper amount of sulphate of alumina is added, forming aluminum hydrate. The water then flows into large settling basins, where the hydrate coagulates all the sediments and deposits them on the bottom of the basin. Now the water is ready for filtering through sand and gravel beds, which remove all traces of foreign matter and most of the bacteria (if present). Before the water is sent by high lift pumps into the mains, it is treated with liquid chlorine in quantities proportioned to bacterial tests, which are made daily. By using such means the water supply is clear and pure. In 1941 it was considered desirable that water for city requirements be softened and a 76 P.P.M. lime and soda ash treatment is now used.

EDMONTON TRANSIT SYSTEM

The street railway system commenced operations in November, 1908, with twelve miles of track and two cars. A program of conversion of street cars to trolley busses and gas busses was completed in 1951 with the attendant removal of street car tracks and additional heavy paving at bus stops. In addition to the trolley busses, five main line routes and nine feeder routes, using diesel, propane and gas busses, serve the outlying areas. In 1943, the system employed 327 persons and carried 30,720,000 passengers; while in 1951 there were 540 employees serving almost 36,250,000 passengers.

TELEPHONES

Edmonton embarked in the telephone business in January, 1905 by purchasing the Edmonton District Telephone Company. In 1908 the Strowger Automatic System was installed and 800 subscribers cut over from the old magneto switchboard. During the war years

there was great difficulty in procuring sufficient equipment to meet the City's growing needs, but now that supplies are freer installations are rapidly going ahead and subscribers numbered over 15,000 in February 1952.

In 1951 the complete system was changed over to the Dial-Tone technique. There are four sub telephone exchanges and one more is to be built this year.

BRICKWORKS

The City now has within its limits two brickyards, one of which is gradually using up all available clay, but a large British firm from Singapore will be opening a new extensive brickworks on the Northern City Limits.

CEMENT WORKS

The existing Exshaw Cement Works upon which the City has always depended in the past has been doubled this year and a new one is to be opened at Edson where a wet process will be used.

University of Alberta

VICEMAN

The Honorable John James Bowlen, Lieutenant Governor of Alberta.

CHANCELLOR

George Frederick McNally, M.A., LL.D.

THE BOARD OF GOVERNORS

Charles Malcolm Macleod Q.C., LL.B., Chairman,
George Frederick McNally, M.A., LL.D., Chancellor of the University.
Andrew Stewart, B.S.A., M.A., LL.D., President of the University.
Kenneth John Hawkins, Esq., Deputy Provincial Treasurer.
William H. Swift, B.A., M.A., B.Ed., Ph.D., Deputy Minister of Education.
Angus C. McGugan, M.D., D.P.H., President of Alumni Association.
John C. K. Madsen, B. Comm., Vice-President of Alumni Association.
Mrs. Winnifred Ross.
Roy Cecil Marler Esq.
Louis P. Mousseau, M.D., F.A.C.S.
Robert H. C. Harrison.
Hugh E. Pearson.
John Maclean Whidden, B. Comm., Bursar, Secretary to the Board.

THE SENATE

Statutory Members

George Frederick McNally, M.A., LL.D., Chancellor.
Andrew Stewart, B.S.A., M.A., LL.D., President.
Charles M. Macleod, Q.C., LL.B., Chairman, Board of Governors.
Wilbur Fee Bowker, B.A., LL.B., Representative of Dean's Council.
Edmund J. Thompson, M.A., B.D., Ph.D., Principal St. Stephen's College.
Brother Luke, F.S.C., B.A., Rector, St. Joseph's College.
Rt. Rev. Walter F. Barfoot, M.A., D.D., Rector of St. Aidan's College.
Wm. E. Frame, M.C., B.A., M.A., Chief Superintendent of Schools.
James Fowler, B.A., B.Sc., LL.D., Principal, Provincial Institute of Technology & Art.
Rev. John H. Garden, B.A., B.D., D.D., Principal, Mount Royal Jr. College.
Angus C. McGugan, M.D., D.P.H., President Alumni Association.

John C. K. Madsen, B. Comm., Vice-President, Alumni Association.
Ralph F. Shaner, Ph.D., Ph.B., F.R.S.C., Representative of General Faculty Council.
Frederick M. Salter, B.A., M.A., F.R.S.C., Representative of General Faculty Council.
Donald Cameron, M.Sc., Director, Dept. of Extension.
Edward Stock, President of Student's Union.

Appointed Members to retire

October 23, 1954

Mrs. Vera Lowe, St. Albert representing Agriculture.
Mr. A. T. Baker, Lethbridge, representing Agriculture.
Fred Stapells, O.B.E., Calgary, representing Business.
R. P. Rantoul, Calgary, representing Labour.
William A. Church, Medicine Hat, representing Industry.
C. O. Hicks, Edmonton representing Public Education.
Alfred A. O'Brien, B.A., Edmonton representing Public Education.
Francis Galbraith, Red Deer, representing Organizations devoted to Social and Cultural Welfare.
Mrs. Wilma Hansen, B. Comm., Calgary, representing Organizations devoted to Social and Cultural Welfare.
Geoffrey B. Taylor, M.Sc., Registrar of the University, Secretary of the Senate.

ADMINISTRATIVE OFFICERS

President of the University—Andrew Stewart, B.S.A., M.A., LL.D.
Assistant to the President—Walter Hugh Johns, B.A., Ph.D.
Dean of the Faculty of Arts & Science—John Macdonald, M.A., D.Litt.
Dean of the Faculty of Law—Wilbur Fee Bowker, B.A., LL.B.
Dean of the Faculty of Engineering—Robert M. Hardy, B.Sc., M.Sc., D.L.S., A.L.S.
Dean of the Faculty of Medicine—John W. Scott, M.D., C.M., F.R.C.P.(C), F.A.C.P.
Dean of the Faculty of Agriculture—Arthur G. McCailla, B.Sc., M.Sc., Ph.D.

Dean of the Faculty of Education—Herbert E. Smith, M.A., MEd, Ph.D.
 Dean of the Faculty of Dentistry—William S. Hamilton, L.D.S., D.D.S., F.A.C.D., F.D.S.R.C.S.
 Director of the School of Pharmacy—Mervyn J. Huston, M.Sc., Ph.D.
 Director of the School of Nursing—Miss Helen Penhale, B.Sc., M.A., B.N.
 Director School of Household Economics—Miss Mabel Patrick, B.A., M.A.
 Director of the School of Commerce—Andrew Stewart, B.S.A., M.A., LL.D.
 Director of the Bank School of Fine Arts—Donald Cameron, M.Sc.
 Director of the Calgary Branch—Andrew L. Doucette, B.A., M.A., Ed.D.
 Assistant Director Calgary Branch of Arts & Science—Victor E. Graham, B.A.
 Director of Summer Session—John W. Gilles, M.A., MEd, Ed.D.

Edmonton

Street and Avenue Directory

1952

SPECIAL NOTICE

♦—This Symbol following the residence name, indicates that to the best of our knowledge someone living in the house is the owner

△—This Symbol indicates that a telephone is located at this number on the street.

This information is compiled by a special house-to-house personal canvass. We do not guarantee to be absolutely correct in every detail, but we believe it to be very accurate and complete, as far as it has been possible for us to get the information personally from the residence.

ALBERTA

Paradise for Vacationists

**Famous Mountain Resorts with
Luxurious Hotels and Chalets**

***Wide Variety of Hunting
and Fishing***

**Highly Productive Farm and Ranch Lands—
Rich Resources in Coal, Oil and
other Minerals**

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the Directory of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb The Whole Cost.

If there were 1000 Subscribers—each one would have to absorb 1/1000 Part of the Whole Cost.

From which it is obvious that the Greater the number of subscribers—the Lesser the cost to each.

Every time you loan your City Directory the Less Necessity There is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, which means Increased Cost.

HENDERSON DIRECTORIES LTD.
